They have been advised to streamline the system of distribution through proper monitoring of demand and supply of controlled cloth at the State and district level. On receipt of controlled cloth by the District Wholesale Agency, the Deputy Commissioner/Collector and District Supply Officer should immediately be informed of the receipt of total quantity received. The Deputy Commissioner/Collector should take the responsibility with the assistance of District Supply Officer and Deputy/Assistant Registrar of Cooperative Societies, to indicate the distribution of controlled cloth in urban and rural areas within his jurisdiction. All Consumer Cooperative Stores as well as other agencies dealing with controlled cloth should display the stock position of controlled cloth received, sold etc. A system of physical verification of the stock held by each wholesaler/retailer should be introduced and the retailers should maintain a register showing arrival of stock, its quantity (variety-wise) etc. It has also been suggested that the number of retail outlets of the controlled cloth both in urban and rural areas should be increased so as to provide proper facilities to the people for getting controlled cloth without any difficulty. The State Governments/U T. Administrations are taking necessary steps to implement the suggestions.
